- Participation In College hackathon

PROJECT

- **Zerodha UI Clone**

A responsive frontend clone of the Zerodha trading platform UI built using modern web technologies. The project focuses on recreating Zerodha's clean design, layout structure, and user experience to demonstrate strong frontend development skills.

- **Weather App**

A weather forecasting web application that fetches real-time data using a public API. It displays temperature, humidity, wind speed, and weather conditions for any city entered by the user. Clean UI and responsive design.

- **Quiz App**

A responsive quiz application built using HTML, CSS, and JavaScript. It displays multiple-choice questions, tracks the user's score, and shows the result at the end. Includes dynamic question loading and interactive UI.

- **To-Do List App**

A simple and interactive task management application built with HTML, CSS, and JavaScript. It allows users to add, edit, delete, and mark tasks as completed, with all tasks saved in LocalStorage for persistent data.

EDUCATION

2029 - 2031

B.Tech In CSE(AI/ML) (2025-2029)

JG University
