## PROJECT

- **Zerodha UI Clone** (<https://zerodha-fron.vercel.app/>)

A responsive frontend clone of the Zerodha trading platform UI built using modern web technologies. The project focuses on recreating Zerodha's clean design, layout structure, and user experience to demonstrate strong frontend development skills.

- **Fresh Cart** (<https://fresh-cart-lime-pi.vercel.app/>)

Developed a responsive website with a user-friendly frontend and a secure admin panel for content and data management. Implemented structured UI components and admin functionalities to efficiently manage updates and improve overall usability.

- **Portfolio** (<https://portfolio-vert-two-47.vercel.app/>)

Designed and developed a personal portfolio website to showcase projects, skills, and achievements in a professional manner. Implemented a responsive layout with smooth navigation to ensure an optimal user experience across all devices.

- **Weather App** (<https://weather-app-mu-five-11.vercel.app/>)

A weather forecasting web application that fetches real-time data using a public API. It displays temperature, humidity, wind speed, and weather conditions for any city entered by the user. Clean UI and responsive design.

## EDUCATION

B.Tech In CSE(AI/ML) (2025-2029)

JG University
